

# FEEL THE POWER OF A PERFECT SWING.

***This proven, patented training technology will add yards to your drives and have you swinging like a pro.***

How would you like to hit the golf ball farther than ever before? How would you like to shave strokes off your score as you increase your power and accuracy? Now you can, with Golf's MVP Red Heat. Just grab your clubs, strap it on your arm and feel the difference in your swing.

Golf's MVP is a unique swing training system that teaches by feel. Designed to replicate the perfect, repeatable swing of the Iron Byron machine, Golf's MVP recreates that precision in the human arm—with a locking cable system that guides your hands into the ideal striking position and encourages proper lower body motion.

Golf's MVP Red Heat will help you achieve a powerful late release for increased distance and accuracy. No wonder it's the Official Power Trainer of Long Drivers of America.

## For golfers of all levels and abilities.

Golf's MVP is right for anyone from beginners to low handicappers. Even many pros tell us they warm up with Red Heat to perfect their timing. The unique instant feedback clip prevents common swing flaws while the adjustable Power Gauge allows you to find the ideal starting point at which the clip stays on the club during your swing. Then, as you gradually adjust the Power Gauge toward Maximum, you will visually witness and physically feel your progressive improvement—keeping you encouraged and motivated to continue.

### Here's how it works.

- Creates the ideal power positions at the top of your backswing.
- Guides correct downswing sequence.
- Dramatically increases club head lag.
- Trains delayed release of the hands before impact.

### Here's why it works.

This amazing product will help you learn how to lock in the power angles that deliver a consistent, late release in your downswing. It will help you create lag to unload the shaft with maximum velocity and power, something guaranteed to add yards to your drives. Golf's MVP does what no other training technology can: actually show you how it FEELS when you drop the club into the slot and return it to the ball perfectly on plane.

### Use Golf's MVP Red Heat:

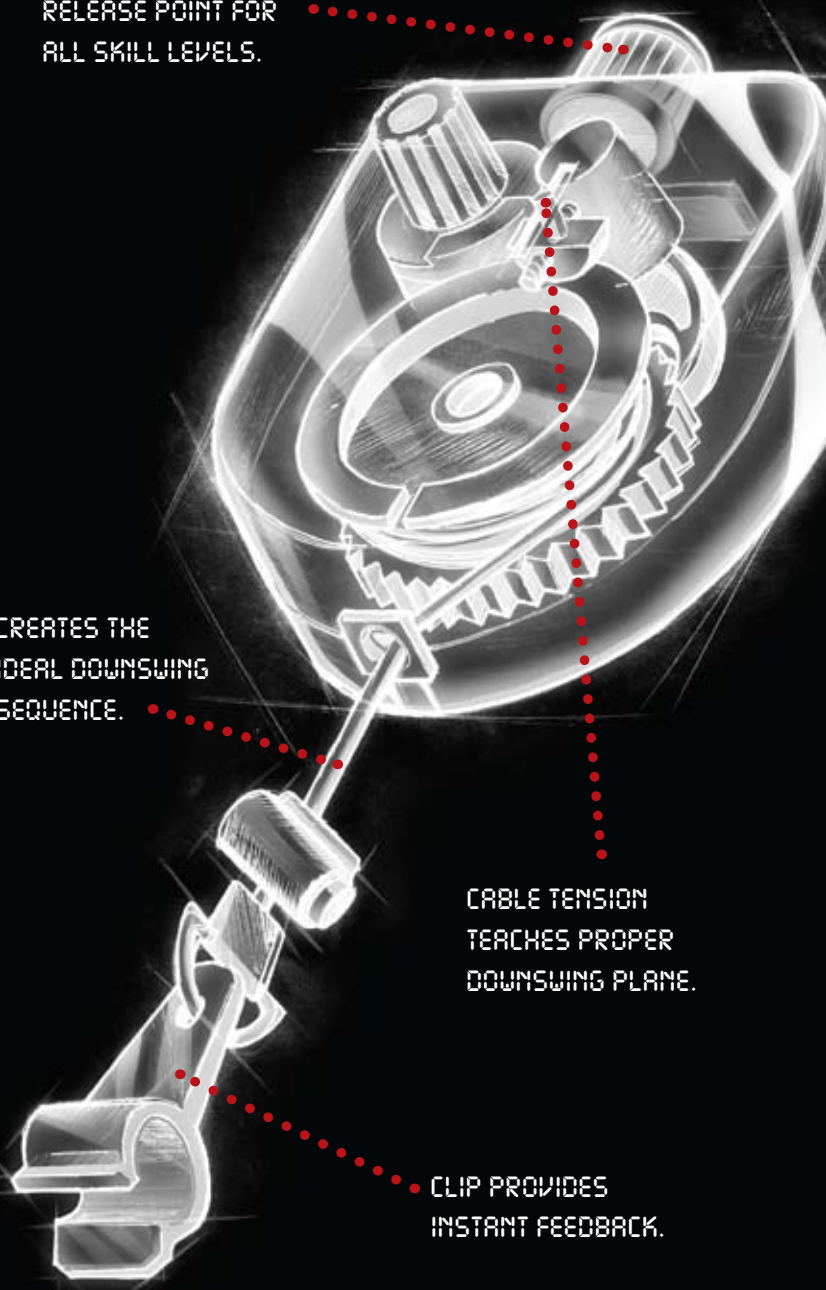

- With your own clubs
- On the range or on the course
- With a ball or without

PROVIDES ADJUSTABLE  
RELEASE POINT FOR  
ALL SKILL LEVELS.

CREATES THE  
IDEAL DOWNSWING  
SEQUENCE.

CABLE TENSION  
TEACHES PROPER  
DOWNSWING PLANE.

CLIP PROVIDES  
INSTANT FEEDBACK.
